55-22

This image is a high-contrast, black-and-white scan of a textured surface. The background is light, and it is covered with a dense, dark, and irregular pattern that looks like a microscopic view of organic tissue or a heavily processed photograph of a natural material. There are no discernible figures or text.

卷之三

A high-contrast, black-and-white micrograph showing several dark, irregularly shaped clusters of material against a lighter, textured background. The clusters vary in size and density, appearing as dark spots or patches.
